RE: Backflow Assembly Test Due at Org Acct Physical Address Name Org Acct Physical Address Org Acct Physical
Address2 Org Acct Physical City, CA 5555555

Dear Water Customer,

The State of California, per California Administrative Code (CAC) Title 17, Section 7605, requires backflow prevention assemblies be installed on all hazardous cross-connections in an effort to keep our water supply safe. These assemblies must be tested and certified every year to ensure they are working properly. The City of Upland has partnered with BSI Online to assist in administering the backflow program in your community. Our records show the following backflow assembly(s) at your property, which are due to be tested by July 20, 2017.

Size	Manufacturer	Model	Serial Number	Hazard	Location
6"	Wilkins	375	03695	Domestic	Alley behind west side of bldg

You are responsible for hiring a San Bernardino County Department of Public Health, licensed backflow tester to perform the annual test and certification of the backflow assembly(s) listed above (BSI does not test backflow assemblies). Please provide the Customer Confirmation Number (CCN) listed in the top right corner of this letter to your backflow tester, as they will need this number to properly file your backflow test reports via BSI Online.

You may also use this CCN at www.bsionlinetracking.com/customer to locate a list of testers in your area, verify when your backflow test has been filed, or to simply learn more about backflow. Please go to our City of Upland website to find more backflow program information via <http://www.ci.upland.ca.us/#BackflowServices>. Please contact BSI via e-mail (bsionline@backflow.com) or phone (800-414-4990) if you have any questions. Thank you for your cooperation and for helping to protect our water resources.

Sincerely,

Christine Walsh, Vice President
BSI / Agent for the City of Upland

For your convenience, your last testing company
of record (if available) is listed below:
